

## Action 16: Better co-ordination of inspection activities

### What is the content?

Ensure better coordination among inspection bodies and between the inspection bodies and the enforcement authorities under Regulation (EEC) No 2092/91.

### What has been done? What was achieved?

The new Council Regulation (EC) No 834/2007 of 28 June 2007 on organic production and labelling of organic products and repealing Regulation (EEC) No 2092/91 is relying on the new EU Regulation 884/2004 for public food and feed control.

### What is planned? What is on the way?

Details still have still to be clarified based on the new implementation rules for organic farming (NIROF) – a Commission consultation document was circulated in autumn 2007. An update of the control guidelines is planned for autumn 2008.
